

RAISE A CHANGEMAKER

The stories of Ruby Bridges, Greta Thunberg and other changemakers highlight how children can be powerful advocates. You can raise kids who care by starting their advocacy journey today!

Here are some ideas to get you started:

1. **Read!** Start early by reading to your child about kids who are advocates. Check out our booklist for some ideas. [Link to our Activist Booklist Here!](#)
2. **Help!** You can help children in need right now. Collect food to donate a local food bank or books to donate to a local Head Start program.
3. **Speak Out!** Lawmakers love to hear from children! Work with your child to write to their lawmakers about an issue that is important to him/her. They can also share their artwork, combined with a handwritten note from you with your request to the lawmaker.
