Virtual Employee Engagement

Promote a Culture of Positivity During Uneasy Times

Save the Children understands companies across the country are transitioning to a virtual working environment due to COVID-19. As a result, employees are facing unique challenges, and teams have to connect in new ways. With this in mind, we have created a variety of opportunities for your employees to maintain a positive energy in these trying times by engaging with Save the Children’s mission virtually. Together, we can transform children’s lives and the future we share during these uneasy times.

Our Offerings:

Virtual Letter Writing

Send words of hope and support a child
Invite your employees to write letters of encouragement and support for children in need around the globe. Save the Children will provide digital assets including letter templates along with inspirational examples. Letters and drawings are emailed and directed to communities we serve. After the children receive the letters, we’ll send a photo and thank you letter from the country office to share with your colleagues.

YouGiveGoods Children’s Care Drive

Donate physical items that will be delivered directly to children
Donate and choose from a selection of items that children and families around the country are in dire need of through YouGiveGoods, an innovative giving platform. The goods will then be bundled and delivered directly to our U.S. Program sites.
100 DAYS OF READING

Raise awareness around the importance of summer learning and literacy

From June 1 (International Children’s Day) – September 8 (World Literacy Day), join Save the Children by logging minutes read on our website to unlock educational resources for children around the country. Additionally, you can encourage your employees to donate books and school supplies through our virtual care drives to ensure children are prepared to return to their classrooms when school resumes.

CHARITY MILES

Encourage a healthy workplace while giving back

The walk around the block has become a highlight of many people’s day. We have partnered with Charity Miles, a health and fitness app that allows people to track their physical activity and translate it into funds for Save the Children. Your organization may already have its own walking challenge. Charity Miles can integrate seamlessly.

SAVE THE CHILDREN ACTION NETWORK

Use your voice to take action for children in need

Save the Children Action Network (SCAN) is the advocacy arm of Save the Children U.S. and a bipartisan political voice for kids. Your employees can take action for children at home and around the world during this difficult time. Invite them to visit SCAN’s webpage to take action in their community or send messages to their local lawmakers.

SKILLS-BASED VOLUNTEERING

Join forces with us so children can benefit from your skills and expertise

Save the Children has vast experience leveraging employees’ time and business skills to support engaging remote projects – both immersive and part-time. Your employees’ expertise can allow us, together, to give children around the world what they deserve – a hopeful future.

For more Resources for Families and Children we encourage you to check out our Resource Center. For more information on Virtual Employee Engagement please contact your Save the Children rep or: Taylor at tfilanowski@savechildren.org
