Together, we're giving children the chance to experience a better tomorrow!

I hope you'll be as inspired as I am about the difference you help make possible in Bangladesh through your support.

Whether we're working to overcome the ongoing impacts of COVID-19, the dangers of war and conflict, and the devastating impacts of climate change — or ensuring every child has equal access to the future they deserve — your generosity helps make a better tomorrow possible!

The successes you'll read about inside are proof. Our partnerships are as strong as ever, and more lasting change is happening community-wide than ever before.

But even after all our successes, the need still continues. That's why we're so grateful each day for your support.

On behalf of our staff in Bangladesh and all of us at Save the Children — **thank you!**

With gratitude,

Janti Soeripto
President & CEO

*Thank you for
making lasting
change for children
in Bangladesh.*

Tania dreams of becoming a doctor ... you will help make it possible!

Thirteen-year-old Tania lives in an impoverished community in Dhaka City with her mother, father and an older brother.

While her family has struggled financially, with her mom as their sole provider, Tania is eager to continue her studies. She dreams of one day becoming a doctor and protecting other children in her community.

The Save the Children program where Tania lives is so important, because it has supported her growth and learning for over six years.

Through this program, Tania is growing more confident in herself and is taking on roles that allow her to inspire other girls to pursue their dreams by continuing their education.

When she's not studying, Tania loves telling stories and capturing the imaginations of young children at the local resource center.

Your contributions, combined with those of other sponsors, make it possible for Tania and other children to achieve their goals. Thank you for believing in a better future for children worldwide.

"The program has helped make positive changes in my life. It's helping me fulfill my life's dream."

– Tania

Save the Children in Bangladesh

1972

The year Save the Children began sponsorship in Bangladesh

3,331

School-aged children benefited from early reading and literacy programs in 2022

328,237

Children and adults were reached directly in 2022

IMPACT YOUR SUPPORT MADE POSSIBLE

School Health and Nutrition

95,806 school-aged children received health and nutrition support, including first-aid services, and benefited from the installation of safe water drinking stations and newly built bathrooms in many local schools.

Early Childhood Development

333 children with special needs (aged 3-5 years) who do not regularly attend school received Play Learning Packages that helped them with home-education plans, resources and supplies for learning.

Adolescents' Development

73,335 teens received sexual and reproductive awareness resources to help them understand and embrace the changes in their bodies as they grow up — including helpful recommendations for health and hygiene.

Child Protection

775 child participants learned about their rights through informational and awareness meetings and forums. Topics covered included critical issues such as child marriage and of violence against children.

More Important Results!

You made so much good possible last year. Here are a few more important results:

1,800 parents in remote, hard-to-reach areas received early stimulation sessions, equipping them to begin educating their children in the home and preparing them for a lifetime of learning.

2,445 pregnant moms and newborns received critical prenatal and postnatal care services to help protect them from illness and improve their nutrition.

8,055 children 6-12 years of age were reached with education resources and supplementary reading materials to help bridge the learning gap created by COVID-19.

TEAM TOMORROW

Learn more about making a better tomorrow possible for children ... starting today!

Eleven-year-old Nisha in Nepal is no stranger to the devastating effects of climate change.

Extreme heat followed by unseasonable rains spoiled her family's crops and diminished their only food source. Nisha and her family struggled tremendously.

"My parents had to buy expensive rice because our crops were destroyed. They were unable to provide necessary school supplies and a uniform for me. It is difficult to go to school without the proper uniform, pens and supplies for class."

Thanks to supporters like you, Nisha is benefiting greatly from programs that protect her rights, health and education — giving her equal opportunity to experience a better tomorrow and a brighter future.
