Together, we're giving children the chance to experience a better tomorrow!

I hope you'll be as inspired as I am by the difference you help make possible in Malawi through your support.

Whether we're working to overcome the ongoing impacts of COVID-19, the dangers of war and conflict, and the devastating impacts of climate change — or ensuring every child has equal access to the future they deserve — your generosity helps make a better tomorrow possible!

The successes you'll read about inside are proof. Our partnerships are as strong as ever, and more lasting change is happening community-wide than ever before.

But even after all our successes, the need still continues. That's why we're so grateful each day for your support.

On behalf of our staff in Malawi and all of us at Save the Children — **thank you!**

With gratitude,

Janti Soeripto
President & CEO

*Thank you for
making lasting
change for children
in Malawi.*

MacDonald dreams of becoming a journalist ... you will help make it possible!

Nineteen-year-old MacDonald* recently graduated from Save the Children's program.

MacDonald is the youngest of six children, and he lives with his mom, helping to support her and her livelihood. After MacDonald's dad died in 2004, he wasn't sure he'd be able to attend school. But through Save the Children he received all the supplies he needed!

While MacDonald excelled at Reading Camp, he is most grateful for all the role models he had — the Save the Children staff members and his teachers.

Through Save the Children programs, MacDonald discovered his love for reading and writing — and he's grown so much. He's especially passionate about chasing his dream of becoming a journalist.

When he's not studying, or with his friends, MacDonald enjoys reading short stories and playing soccer.

Your contributions, combined with those of other sponsors, make it possible for MacDonald and other children to achieve their goals. Thank you for believing in a better future for children worldwide.

"Save the Children helped me learn how to read and write."

– MacDonald

1993

The year Save the Children began sponsorship in Malawi

300

Students participated in the first-ever Climate Change Summit in 2022

27,986

Children and adults were reached directly in 2022

IMPACT YOUR SUPPORT MADE POSSIBLE

School Health and Nutrition

2,933 school-aged children in 4 local schools received art supplies — including paper, pencils, crayons and paint — that promoted mental and emotional healing and overall wellbeing.

Community Health

12 health care and social workers received first-aid training that equipped them with skills and knowledge to meet the social needs of children and community members affected by stress.

Adolescents' Development

1,976 teens participated in youth-led forums where they discussed their concerns about child safety and protection — as well as discovered their voices as they spoke out against discrimination and inequality.

Child Protection

65 community members were trained and equipped to mobilize grassroots efforts that promote child protection programs in new areas in order to reduce sexual violence and exploitation.

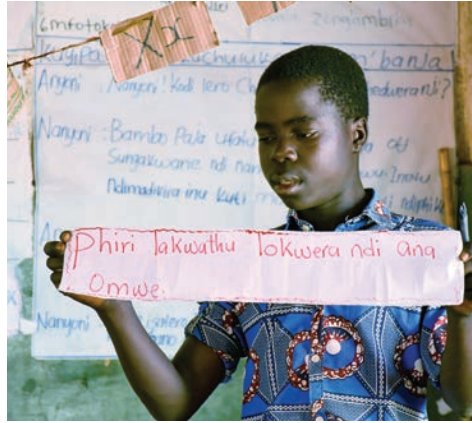

*Names changed for protection.

More Important Results!

You made so much good possible last year. Here are a few more important results:

5,951 children were assessed to determine their literacy levels in writing and reading comprehension.

92 teens who dropped out of school participated in Back-to-School programs that helped them re-enroll.

5 primary schools were outfitted with 1,755 reams of paper and with other learning and art supplies.

TEAM TOMORROW

Learn more about making a better tomorrow possible for children ... starting today!

Eleven-year-old Nisha in Nepal is no stranger to the devastating effects of climate change.

Extreme heat followed by unseasonable rains spoiled her family's crops and diminished their only food source. Nisha and her family struggled tremendously.

"My parents had to buy expensive rice because our crops were destroyed. They were unable to provide necessary school supplies and a uniform for me. It is difficult to go to school without the proper uniform, pens and supplies for class."

Thanks to supporters like you, Nisha is benefiting greatly from programs that protect her rights, health and education — giving her equal opportunity to experience a better tomorrow and a brighter future.

Want to know more about our programs to address the issues of poverty in the United States, inequality, conflict, climate change and more? Visit savethechildren.org/teamtomorrow or scan the QR code.
